Find a career that matches both your interests and your personality

Feeling overwhelmed about possible career choices? Not sure what to do next? If you are in the throes of career confusion, “My career choice” will help you to choose your best fit job. Self-analysis questionnaires, preparatory sheets, directive and non-directive style interviews, exercises and tools inherited from coaching techniques and professional development support career exploration process. The program combines MBTI® and Strong Interest Inventory® assessments to deliver valuable insights individually. Using their results together provides even deeper insight and greater self-understanding.
